

Building Beds to Make Your Life Easier

WHY A FLATBED IS BETTER THAN A FACTORY BED

- Easier to reach tools and equipment on bed
- Significant more floor space
- Load pallet material from either side and rear
- Tie downs and stake pockets are much easier to use to secure load
- Average scrapes and bumps do not hurt bed and can be easily touched up
- Gooseneck ball is integrated into bed
- Receiver hitch is integrated into bed
- Mudflaps behind rear tires are standard
- Much more adaptable to toolboxes on the sides or ladder racks, including adding specialized equipment
- Some insurance companies give discounts for flatbeds
- Cab and rear glass protection by headache rack
- More lighting, making it safer
- Can add underbed toolbox storage
- Added protection in trailer jack-knife or rollover accidents
- Better vision for passing, parking, backing up
- More gooseneck clearance
